Category:3D rendering softwareQ:  
access to local files with air I'm  
trying to make an app that reads a  
JSON file (currently in the root) and  
the gets the values from it and that's  
ok. But I don't know how to access  
to the file locally. This is the code:  
var url:URLRequest = new URLRequest  
("file:///Users/myUsername/D  
esktop/test.json"); var  
urlLoader:URLLoader = new  
URLLoader(); var str:String =  
urlLoader.data; And I don't know  
what to do in order to access to the  
file locally. I tried to create a new  
file in the assets folder but it can't

---

access to it and show me the error: file:///localhost/Users/myUsername/Desktop/test.json A: use this code and you don't need to add internet permission

```
var url:URLRequest =
new URLRequest("file:///Users/myU
sername/Desktop/test.json"); var
urlLoader:URLLoader = new
URLLoader(); urlLoader.dataFormat
= URLLoaderDataFormat.BINARY;
urlLoader.addEventListener(Event.C
OMplete, onCompleteHandler); ur
lloader.addEventListener(IOErrorE
vent.IO_ERROR,
onIOErrorHandler); function onCom
pleteHandler(event:Event):void { var
```

---

```
str:String = urlLoader.data as String;
} function onIOErrorHandler(event:IOErrorEvent):void { trace(event); }
you must set urlLoader.dataFormat =
URLLoaderDataFormat.BINARY
when you use
URLLoaderDataFormat.
```
